A THROWBACK TO ONE OF OUR
MOST POPULAR SKATE LINES,
THE CODE SERIES.

This year we have drastically improved our ankle wrap and increased our
L-pads for a heel-hugging lock while maintaining the wide forefoot and toe box that
Tour Skates are known for. Our new Knetik Tendon guard, ARC tongue, and Vibram
scuff guards come together to round out our best fit yet!

ANTI LACEBITE
REMOVEABLE TONGUE
CUSTOM FIT TOE BOX

The debut of the ARC tongue featuring our most technically advanced tongue yet.
Instantly re-position or swap out tongues with the custom Velcro strap. Added tongue
felt in the toe box eliminates the negative space between your toes and toe cap which
makes the skate more comfortable and provides better stability and control. Aero Ridge
Anti-Lacebite channels distribute tension points eliminating uncomfortable lacebite.
All new Knetik Tendon guard provides the best range of motion on the market allowing for an aggressive “snap-back” while enhancing full stride extension. The unique contour design wraps comfortably around the heel adding to our best fit yet.
Your skate can now breathe through vents in the boot that when combined with the ACCUAIRE Lining give your skates a cooler ride while maximizing the life span of the boot through better drying.

Perforated moisture wicking material keeps feet dry and cool throughout the game. Patented H600 2nd skin layer is soft and comfortable while remaining strong and durable.
A quarter panel combination that mirrors high tech materials with Surlyn to give the boot rigidity where you need it without sacrificing comfort and reducing break in.

Custom recessed cavity allows wheels to be raised, reducing center of gravity! (Low Center of Gravity = More Control, More Speed).

Strategic VIBRAM wear patches on the insides and outsides of the boot increase durability and minimize boot wear. VIBRAM rubber combines hyper-functional design with exclusive rubber compounds. Non-Marking high quality compound formulation made with 30% recycled rubber.

THE ONLY HOCKEY GLOVE OF IT'S KIND

CODE 1 GLOVE

Combining the dexterity and weight of a lacrosse glove with the feel and protection of a hockey glove. Antimicrobial moisture wicking lining works to keep hands dry during the game while remaining soft and comfortable.

Strategic venting on the back of the hand improves heat dispersion during play and allows the glove to dry up to 3x faster. The newly designed perforated synthetic leather palm increases airflow without sacrificing comfort.
Newly designed ContourMax segmented design follows natural hand motion for superior comfort and movement. Articulated stretch thumb provides improved thumb flexibility and rotation. The fusion between a lacrosse glove and an ice hockey glove truly creates the first every roller hockey specific glove.

Dual-density high impact foam throughout the glove offers superior protection in all key areas. Hard plastic inserts in the glove provide reinforced protection in the fingers, backhand, and thumb.
### CODE 1 GLOVE

**MODEL** 5324  
**ADULT SIZES** 12” - 13” - 14” - 15”  
The Code 1 is the only hockey glove of its kind, utilizing FUSIONFIT Construction which combines the dexterity and weight of a lacrosse glove with the performance and protection of a hockey glove.  
FLOWCOOL tech provides unbeatable heat dispersion using palm and back hand venting.  
Newly designed ContourMax segmented design follows natural hand motion for superior comfort and movement  
Articulated stretch thumb provides improved thumb flexibility and rotation  
Dual-density foam throughout the glove offers superior protection in all key areas.  
Antimicrobial moisture wicking lining keeps hands dry during the game.

### CODE 3 GLOVE

**MODEL** 5313  
**ADULT SIZES** 12” - 13” - 14” - 15”  
The Ultimate Pro Level Glove  
The only hockey glove of its kind, combining the dexterity and weight of a lacrosse glove with the feel and protection of a hockey glove  
Antimicrobial moisture wicking lining keeps hands dry during the game  
Newly designed ContourMax segmented design follows natural hand motion for superior comfort and movement  
The INHALE mesh palm enhances airflow through the palm, eliminating sweat and slippage  
Dual-density foam throughout the glove offers superior protection in all key areas.  
Articulated stretch thumb provides improved thumb flexibility and rotation  
FLOWCOOL venting on the back of the hand improves heat dispersionment

// BEVO™ BEARINGS

Bevo™ bearings are engineered and manufactured to surpass the quality of standard bearings. Only Chrome Steel races and retainers are used in the manufacturing of Bevo™ Bearings. The quality and characteristics of Chrome Steel not only dramatically increases the life of your bearings, it also assures maximum performance resulting in a faster smoother ride. Our custom DEEP Groove Channel stabilizes the roll, reducing vibration and roll resistance. Only self channeling synthetic lubricants are used in Bevo™ bearings. You can rest assured when riding on genuine Bevo™ Gold or Silver rated bearings, you will maximize your performance.

// CUSTOM JERSEYS

› Custom Jerseys
› our designs, our game
› 100% custom design, we work with you until you are happy
› Multiple fabric and collar options
› Innovative designs, superior quality
› CONTACT (714) 232-7224
› Our friendly staff will guide you through the process
CUSTOM PANTS

1 - Our professional designers will assist you in designing your 100% Custom Pants. Our Custom Team Pants are designed, especially for your team.

2 - We will walk you through the design process from color selection to logo creation.

3 - Your Team ends up with the hottest look in town, at an affordable cost.

FEATURES

SUBLIMATION AREAS

All white areas showing in the diagram to the right are “sublimation areas”. In these areas we can print your team’s custom design.

BREATHABLE AIRVECCE PANELS

Our new AirVecc Panels are made from lightweight Breathable Material. Strategically positioned to increase airflow, these panels will keep you cool while you’re playing.

WEARMAX KNEE PADS

High quality nylon provide an extremely durable knee pad without sacrificing weight or mobility. Durability where you need it most!

CUSTOM STRETCH CROTCH

The Custom Stretch Crotch was designed with hockey movement in mind. The large 4-way stretch area allows for maximum movement and aids in a full stride extension without hindering knee propulsion.

EASY FIT ELASTIC WAIST

Quickly adjust your waist size with our Easy Fit Elastic Waist pullstraps. This waistband was designed to be more comfortable and less restricting while playing.

Designed For Performance

While designing our custom pant we kept 3 things in mind:

1. Lightweight
2. Durability
3. Performance
CUSTOM GLOVES

1. Our professional designers will assist you in designing your 100% Custom Glove. Our Custom Team Gloves are designed, especially for your team, including the custom team cuff logo.

2. We will walk you through the material and Embroidery selection. That’s right, you select the Glove Material, no corners are cut for Custom Gloves.

3. Your Team ends up with the hottest look in town, at an affordable cost.
